Dear

**RE: INVITATION TO ANIMAL PRODUCTION SOCIETY OF KENYA (APSK) ANNUAL SCIENTIFIC SYMPOSIUM FOR THE YEAR 2018**

I am writing to inform and invite you to the upcoming Animal Production Society of Kenya (2018) Annual Scientific Symposium and Exhibition. This meeting will be held in April 4-6, 2018 at Sportsman Arms Hotel, Nanyuki and the theme is **“Sustainable Livestock Innovations and Technology: Roadmap to Improved Food and Nutrition Security”**.

Specifically, the symposium will provide a platform for stakeholders to share their work and help shape the emerging national agenda on a wide range of livestock production issues. The timing and subject are critical, coming at a time when Kenya – through the **BIG FOUR** - seeks to balance overall economic growth with the challenges of feeding a growing population, and using its natural resources effectively without harming its environment. There is no doubt that practical innovations are needed to meet these challenges. We are committed to elevating the conversation at the symposium beyond theoretical discourse to focus on actionable areas for the benefit of Kenyan people.

We regret that funding for travel and other related expenses is the responsibility of the symposium participants. A symposium registration fee of Kshs 13,000 is required to participate in the scientific meeting.

We look forward to seeing you in Nanyuki.

Yours Sincerely,

**Samuel M. Mbuku, PhD**  
**CHAIRMAN, APSK**
